

# IntelliJ IDEA 13.1 135.667 Release Notes

No subsystem	
<a href="#">WEB-11405</a> (Bug)	Bower: Available Packages: remove first empty line
<a href="#">IDEA-123377</a> (Bug)	Quick definition action on interface opens implementations at first
<a href="#">WEB-11434</a> (Bug)	Can not download TypeScript community stubs
<a href="#">WEB-9865</a> (Bug)	Autocomplete ignores JSDoc class hinting, doesn't prioritize method in pop-up
<a href="#">IDEA-121309</a> (Bug)	License: on entering different license key agreement for old key is shown
Code Analysis. Inspection	
<a href="#">IDEA-122414</a> (Bug)	Boolean expression simplification changes behavior of the code.
Code Coverage	
<a href="#">IDEA-123499</a> (Bug)	Upgrade bundled JaCoCo to recent version to support Java 8
<a href="#">IDEA-123343</a> (Bug)	asm 5 gives labels new names so code with branches is always only partially covered
CoffeeScript	
<a href="#">WEB-11483</a> (Bug)	coffeescript syntax highlighting breaks when using <code>#{ &lt;expr&gt; }</code> in strings
Compiling Project	
<a href="#">IDEA-122924</a> (Bug)	FileProcessingCompilerAdapterTask ignores value of ValidityState
<a href="#">IDEA-108515</a> (Bug)	Update Resources on frame deactivation should not perform compilation
Dart	
<a href="#">WEB-10210</a> (Feature)	Dart: add ability to explicitly specify the packages root directory
Debugger	
<a href="#">IDEA-122950</a> (Bug)	Breakpoints aren't set, unless debugger already active
<a href="#">WEB-2100</a> (Bug)	Node.js debug: value is truncated, but IDE does not suggest to see full value
<a href="#">WEB-11392</a> (Bug)	Node.js debugging: Copy Value doesn't copy the entire string
<a href="#">WEB-11133</a> (Bug)	JS Debugger: Variables view is not properly updated after setting value
Grails	
<a href="#">IDEA-123140</a> (Bug)	Grails add "-plain-output" option by default
HTML	
<a href="#">WEB-421</a> (Bug)	HTML: 'Merge tags' for <code>&lt;script&gt;</code> tag breaks embedded javascript formatting
IDE Configuration	
<a href="#">IDEA-71048</a> (Bug)	Version Control History: Wrong DateTime Format
J2EE.JBoss	

IDEA-114349 (Bug)	Artifact is not deployed to Wildfly 8 when IDEA is running under JDK 6
J2EE.Struts	
IDEA-123201 (Bug)	Misplaced Struts icon
Java. Code Completion	
IDEA-123291 (Bug)	Don't suggest static methods in 'smart completion' after '::' in 'non static context'
IDEA-123293 (Bug)	Suggest only compatible methods in smart completion after '::'
Java. Error Highlighting	
IDEA-123279 (Usability Problem)	Highlight unresolved method references as other unresolved references
IDEA-123084 (Bug)	Modules with errors are not marked in project tree.
IDEA-123248 (Bug)	Java 8 lambda support: false positive Cyclic inference
IDEA-123316 (Bug)	Java 8: Incorrect Error message
IDEA-123252 (Bug)	bad code is green: modifier static not allowed here
IDEA-123308 (Bug)	Final field cannot be assigned twice in lambda expression
IDEA-123223 (Bug)	'transform'...cannot be applied to '<method reference>'
Java. Intention Actions	
IDEA-112556 (Feature)	"Create from usage" quickfix should be available on unresolved method reference
IDEA-123034 (Usability Problem)	Unused assignment inspection - Remove quick fix
IDEA-122974 (Bug)	"Create Local Variable/Field/Parameter" intention infers incorrect type
IDEA-123296 (Bug)	Quickfixes for errors inside lambda expressions should add statements into the lambda if the expression depends on lambda parameters
Java.Inspections	
IDEA-122624 (Bug)	@Contract fails on vararg methods
IDEA-122215 (Bug)	"Constant conditions & exceptions" inspection
IDEA-120769 (Bug)	False positive "Expected exception never thrown in test method body" when JUnit.Test.expected is some specific exception subclass
IDEA-121287 (Bug)	Add intention to add Enum value to Enum
JavaScript	
WEB-11423 (Usability Problem)	'goog.provide' should not be a target for Goto Declaration
WEB-11472 (Bug)	Invalid "this" support in arrow function
WEB-11471 (Bug)	Invalid jsdoc support for nullable boolean type
WEB-11683 (Bug)	JSDoc: Generic type attributes are not correctly propagated to base classes
WEB-11484 (Bug)	Javascript: Adding module.exports = classname breaks structure view

WEB-11677 (Bug)	AngularJS: "ng-" tags suggested in Spring Beans XML
WEB-11527 (Bug)	Wrong completion of AMD module elements
WEB-11272 (Bug)	"Unresolved function or method" inspection false positive when multiple left-hand assignment is used to assign module.exports
WEB-11504 (Bug)	Auto completion doesn't get all subtypes when adding function parameter
WEB-11634 (Bug)	Color highlighting bug of multi-var statement with yield
JavaScript. Frameworks	
WEB-11607 (Bug)	Angular.js: wrong navigation from ng-directives into minified source instead of not minified
WEB-11428 (Bug)	AngularJS: quick documentation for ng directives stops working if a documentation URL is configured
JavaScript. Inspections	
WEB-10275 (Bug)	"private member not accessible" warning on Object.prototype when lodash library is in a project
WEB-11335 (Bug)	Intention "Simplify if" changes semantics
LESS	
WEB-11550 (Bug)	LESS code reformat produces invalid LESS file
Project Configuration	
IDEA-123142 (Bug)	Cannot specify default (no) package in Command Line App project template.
IDEA-123145 (Bug)	New project wizard is broken
SASS	
WEB-10710 (Feature)	Reformat Code: support Sass List (and Map)
WEB-11417 (Bug)	Support suffix after parent selector & (relates to 3.3)
WEB-11630 (Bug)	File Structure (Ctrl+F12) & Sass at-root: no title
SQL	
IDEA-123044 (Bug)	MSSQL: good code with xml is red
IDEA-123190 (Bug)	auto quotation of named parameters in SQL QueryStrings
Spring	
IDEA-122490 (Performance Problem)	IntelliJ 13.1 locks up on Find Usages for commonly used method
IDEA-123054 (Bug)	Spring MVC View, duplicated path
Task Management	
IDEA-123179 (Bug)	Task context grows to humongous size
TypeScript	

WEB-11512 (Usability Problem)	'Find usages' searches .map files
WEB-10511 (Bug)	No typescript error for interface defined inside of function leads to confusion
WEB-11628 (Bug)	Typescript: wrong syntax parsing
WEB-11464 (Bug)	Typescript: "Return statement is required" error on "any" return type
WEB-6098 (Bug)	TypeScript: Completion for types within the same module
WEB-11403 (Bug)	WEB-11403 TypeScript doesn't update highlighting on parameter optionality change
WEB-11382 (Bug)	Typescript - 'private' attribute is forbidden in module scope
WEB-11595 (Bug)	Typescript: "method expression is not of Function type" on any type
WEB-11642 (Bug)	Typescript bogus error
WEB-11511 (Bug)	'Make static' does not correctly refactor usages
WEB-10475 (Bug)	TypeScript: Bad code good: Rest parameters must be array types
WEB-10235 (Bug)	Parameter Info does not show in for Typescript library definitions of constructors
WEB-9282 (Bug)	Code hinting partially broken in TypeScript when using .d.ts TypeScript definition files.
WEB-11568 (Bug)	Typescript: exported enum wrongfully highlighted as unresolved variable
Unit Testing. JUnit	
IDEA-123209 (Bug)	JUnit: test case constructor exception is not shown
Unit Testing. TestNG	
IDEA-123385 (Bug)	Running all tests in a project for a test group doesn't work
Unit Tests	
WEB-8925 (Bug)	Karma: make it possible to capture browser manually
User Interface	
IDEA-123236 (Bug)	Can't click through
IDEA-99329 (Bug)	Buggy UI when manually adding framework support for a module
IDEA-120011 (Bug)	quick documentation loses styling
Version Control	
IDEA-122429 (Usability Problem)	git log branch filter: show currently selected branches in "Select..." popup window.
IDEA-122300 (Usability Problem)	Git: Log: Show full path in structure filter tooltip
IDEA-121969 (Task)	Don't load changes details on start
IDEA-122558 (Bug)	Filter by user, then by branch doesn't work
Version Control. Git	
IDEA-121875 (Task)	Git log: Manually sort loaded commits by date
IDEA-121948 (Exception)	IAE at com.intellij.vcs.log.newgraph.facade.GraphData.assertRange

XML	
<a href="#">IDEA-123103 (Bug)</a>	Structure view empty when editing some XML files
spy-js	
<a href="#">WEB-11654 (Bug)</a>	Spy-js: correctly show code fragment in the Editor
