

CLion 1.2.2 EAP, build 143.1015

Code: Documentation	Bug	CPP-4554	Structs defined in inline typedefs do not correctly show up in quick definition.
	Usability	CPP-3687	Quick documentation should include template parameters for classes
Code: Generation	Bug	CPP-4676	Override Functions... command generates invalid code for functions with nameless parameters
	Bug	CPP-4469	suggest name when implementing function with unnamed arg
	Bug	CPP-4922	Missing constexpr after implementing function
Code: Highlighting and Inspections	Bug	CPP-4962	Length of UTF8 encoded char literal is incorrectly deduced when assigning to array variable
Code: Navigation	Feature	CPP-3181	Include C/C++ symbols in Search everywhere
Code: Parsing	Bug	CPP-5001	Macro Expansion: 'Expression Expected' In Conditional Expressions
	Bug	CPP-5013	Macros from inlined headers are substituted to empty strings if referencing other macros
	Bug	CPP-4972	gcc attribute after constructor signature with member initializer list incorrectly generates a syntax error.
Debugger: GDB	Performance	CPP-4822	Optimise working with maps
Project Model	Bug	CPP-3793	Project files are saved with Windows-paths, causing 'CMakeLists.txt not found' when opening on another computer/OS
	Bug	CPP-5079	CLion doesn't recognize include_directories when using CMake 3.4
	Bug	CPP-5049	Project breaks because the build output directory is "."
Editor. Editing Text	Bug	IDEA-140542	Forward navigation to already navigated items (ctrl + alt + right)) seems to be broken
	Bug	IDEA-147590	Mac ctrl-k shortcut in multiselect only operates on last cursor
	Bug	IDEA-148225	{@code} and {@literal} Javadoc blocks aren't treated literally by Ctrl+Q
Find, Replace, Find Usages	Usability	IDEA-147570	"Find Next Occurrence" command does not remove extra carets
User Interface	Bug	IDEA-137697	Sometimes editor starts scrolling on its own
	Bug	IDEA-148145	EditorGutter's extra space appeared
Version Control	Bug	IDEA-148286	Version Control: "select in git log" action from Annotations should be disabled for non-git projects or navigate to revisions lists
	Bug	IDEA-138583	Version control gets stuck when grouping by client
	Performance	IDEA-148148	Repeated freezes while editing text
	Usability	IDEA-147618	Let add a Keymap shortcut to open the "Local Changes" tab by a single action
Version Control. Git	Performance	IDEA-143358	Project leak (Git authenticator)
	Usability	IDEA-147758	"Show in Git log" menu item missing in annotate pop-up
Version Control. Subversion	Bug	IDEA-145355	Subversion: with 'autoupdate after commit' option switched on, LocalChanges view is not refreshed after commit
	Bug	IDEA-145934	svn commit not working at all
