

Release Notes for Agra, build 3811

Pending changes are shown on the overview page

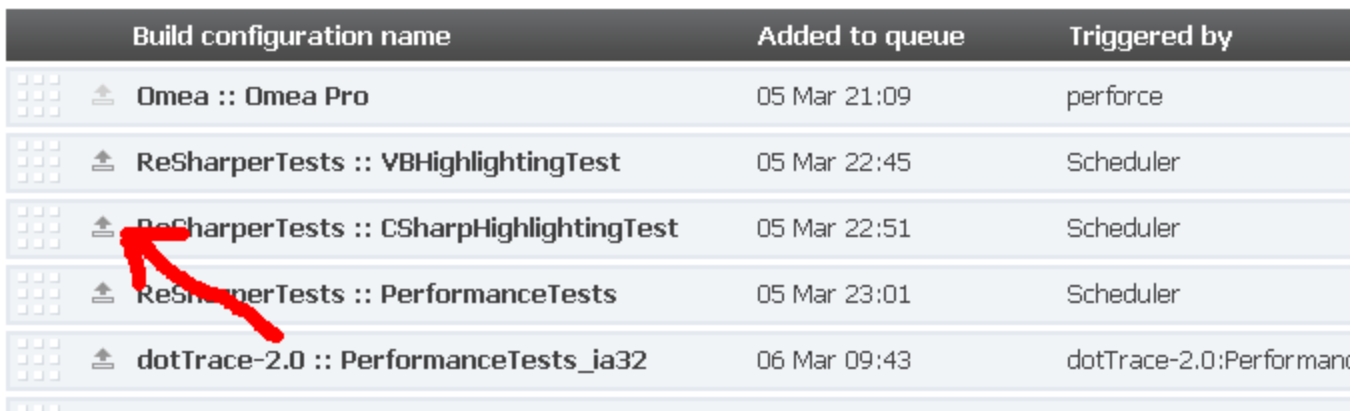

Slow		Running 3 builds and 1 build	
#8593	Tests passed: 97	No artifacts	Change
#8592	Tests passed: 361	No artifacts	Change
#8590	Tests failed: 1 (1 new), passed: 359	No artifacts	Change
#8589	Tests failed: 4 (4 new), passed: 878	No artifacts	No

Move build to top of build queue

Build Queue

Use drag-and-drop to reorder the queue.

Build configuration name	Added to queue	Triggered by
Omea :: Omea Pro	05 Mar 21:09	performce
ReSharperTests :: VBHighlightingTest	05 Mar 22:45	Scheduler
ReSharperTests :: CSharpHighlightingTest	05 Mar 22:51	Scheduler
ReSharperTests :: PerformanceTests	05 Mar 23:01	Scheduler
dotTrace-2.0 :: PerformanceTests_ia32	06 Mar 09:43	dotTrace-2.0:Performanc

Restrict maximum number of simultaneously running builds of one build configuration

Now it is possible to specify maximum number of concurrently running builds for a build configuration.

Bug fixes & improvements

- OpenAPI: Notification templates engine now allows customization from plugins: a plugin is able to register its own patterns and processors for this patterns.
- Maven build runner gets stuck in dependency resolution loop
- TW-1879 LDAP login allows login with invalid credentials

- TW-1851 IPR runner incorrectly shows project modules as unresolved
- TW-1872 IPR runner: Detection of global libraries fails
- TW-1903 Load build log lazily
- TW-1808 VisualStudio 2005 addin: "No IDE responded"
- TW-1709 Build is marked obsolete even if single ping to agent fails
- TW-1679 Not getting latest changes from Perforce 2002.2
